*Minister, Dear Dany,*

I apologize being so late thanking you for the marvellous friendly welcome you extended to us. We were very touched by your hospitality as much as we loved your great and beautiful country.

I told G. Cauvin of your project of sending a small qualified team in an European high technology scanning mission.

We are ready to welcome this team in Thomson when they come. Please let G. Cauvin know in advance the dates and the program, he would be in charge the organization of the visit of which I shall personally monitor.

Thank you again.

*Very faithfully yours*
